YOUR GUARANTEE

FRENCH NURSERY CO.

AT CLYDE, OHIO

SINCE 1863

TERMS OF SALE

GUARANTEE

We give no warranty, expressed or implied, as to description, quality, growth, productiveness, or any other matter, of any stock we sell. It is mutually agreed that our total liability for untruthfulness to name shall be limited upon satisfactory proof, to free replacement, or refund of the purchase price.

REPLACEMENT.

It is the desire of the FRENCH NURSERY CO to satisfy every customer, and this has been our policy for NINETY YEARS. We guarantee our stock to reach the customer in good condition, and we will replace absolutely free any stock that does not reach the customer in good condition, providing we are notified immediately upon arrival of order, so that we can make claim with transportation company.

We do not replace Nursery Stock that fails to live. Possible neglect of planter and unavoidable climatic conditions prevent guaranteeing trees and plants to grow. We will, however, replace at one half the current years prices, any plants that die the first summer if the customer notifies us before August first following.

TERMS

Prices listed cancel all previous prices and are subject to change without notice. All offers are made subject to supply. All shipments will be Cash on Delivery, unless Cash is paid in advance of shipment. Small trees and Plants may be sent by Mail. Where Parcel Post shipment is desired, there will be an additional charge for Postage. Add 25c To Orders up to \$2.50 Add 40c to Orders up to \$5.00. The customer pays transportation charges on FREIGHT and Express shipments.

SALES TAX

In Ohio there is a 3% SALES TAX, on all orders that are not used for home consumption. Fruit Trees and Small Fruits are TAX EXEMPT.

Note: Add 10c to above prices for ALBRU & HARDEE.

FRENCH'S OWN INTRODUCTIONS.

★ALBRU - U. S. Plant Patent No. 813

Albru is a sport of J. H. Hale, a large highly colored freestone, ripening in Elberta season. It doesn't have the small "Buttons" or small undeveloped peaches at harvest like J. H. Hale. It bears heavy as Elberta, ships and handles well. Many large growers consider it the best variety in Elberta season. Albru has everything the commercial planter wants - Size, Quality and Color. Albru always Commands highest prices.

★HARDEE - U. S. Plant Patent No. 120.

This variety has demonstrated, that it is hardy in both bud and wood far beyond that of Elberta and most common varieties. Hardee ripens at the same time as Elberta. It is a yellow freestone peach of a deep yellow color with a red cheek. It is an outstanding variety for home use, the flavor is exceptionally fine, having all the desired qualifications for dessert, cooking and the flavor makes HARDEE an outstanding variety for canning.

Note: Opposite each variety you will note their approximate ripening date, as given by the Government Experiment Station at Wooster, Ohio.

Peach trees are one of our main items. Our PEACHES are grown on rich sandy soil, which enables us to produce trees, with a wonderful Root system, plenty of Fibre Roots, which are so essential. For the Commercial Planter, we highly recommend the 3-4 ft. 7/16 Caliper, often called the medium grade or orchard size.

NOTE: WHEN BUYING IN LARGE QUANTITIES SEND US YOUR DEFINITE LIST OF VARIETIES FOR SPECIAL QUOTATIONS.

APRICOTS & NECTARINES

**TIPS ON DISTANCE TO PLANT - - NUMBER
PER ACRE FOR SMALL AND LARGE FRUITS,
ASPARAGUS, ETC.**

Distance for planting - Square Method

Distance for planting different kinds of fruit trees, etc., square method:

Peach - 20 feet apart each way

Standard Apple - 35 feet apart each way

Cherry, Sour - 18 feet apart each

Cherry, sweet - 20 feet apart each way

Standard Pear - 20 feet apart each way

Plum - 20 feet apart each way

Grape Vines - Rows 8 feet apart, 8 feet apart in row
Currants and Gooseberries - Rows 4 feet apart, 4 feet apart in row

Blackberries - Rows 6 feet apart, 6 feet apart in row

Black Raspberries, Garden culture - 3x4 ft.

Black Raspberries, Field culture - 7x4 ft.

Red Raspberries, Garden culture - 4x3 ft.

Red Raspberries, Field culture - 7x3 ft.

Strawberries, Field culture - Rows 4 feet apart, 1½ feet apart in row.

Strawberries, Garden culture - Rows 2 feet apart, 1 foot apart in row

Asparagus, in Field - Rows 5 foot apart, 2 foot apart in row

Asparagus, in Beds - Rows 1½ feet apart, 1 foot apart in row

Rules for Other Distances

Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill, which, divided into the number of square feet in an acre (43,560), will give the number of plants or trees to an acre.
